How it works

1. You send product images, key selling points and references.
2. We agree the scope, a fixed quote and the creative direction in writing.
3. 50% deposit to start production.
4. You review watermarked previews and share feedback within the agreed revision scope.
5. Remaining 50%, then clean masters in every agreed format.

First cut typically in 1–3 working days for 15–30 second ads, after assets and script approval.

Included in every project

- Commercial rights to the finished videos belong to you; usage terms are confirmed in writing for each project
- Full HD 1080p masters as standard
- Human review of every shot for product accuracy and AI artefacts
- Licensed music only
- No imitation of real people, celebrities or other brands, and no fake testimonials or AI "customers"
- Revision scope is set in the written quote; changes to an approved direction may affect cost and timing

What we need from you

- Product photos or footage, logo and brand guidelines
- Key selling points, approved claims, audience and channels
- Screen UI files if the product has a display
- Deadline and any usage restrictions

Quotes are valid for 30 days. Larger campaigns and long-term partnerships are quoted to brief.
